

Keeping pace with the demands of fabric filtration technology and the needs of our diverse customers.

We offer lower prices than other manufacturers. Our manufacturing process is swift and efficient. We will turn your order around quickly, so you stay up and running. Our process is ISO certified and we guarantee our filter bags will meet your required specifications.

We manufacture dust filtration bags to fit popular baghouse systems such as Wheelabrator, Donaldson Torit, Dustex, Flexkleen, Dura-life, Aeropulse, Fuller, Griffin, Mac Equipment, Mikropul and others. We also create custom dust filter bags to match specific customer requirements and NFPA grounded filter designs.
